ANAND P R

Junior Python Developer | Full-Stack | React Native

Palakkad, Kerala, India| +91 8075065843| anandpr2662@gmail.com | linkedin.com/in/anandpr-dev| github.com/anandramaswami

SUMMARY

Dedicated and detail-oriented Python Full-Stack Developer with hands-on experience in Django and React-based web and mobile applications. Skilled in developing responsive frontend interfaces, building backend functionalities, and integrating databases using MySQL. Experienced in creating full-stack solutions, implementing CRUD operations, and developing user authentication and management modules. Adept at debugging, testing, and optimizing applications to enhance performance and user experience. Strong collaborative and problem-solving skills with a commitment to delivering high-quality, scalable solutions.

KEY SKILLS

- RESTful API Development & Integration
- CRUD Operations & User Authentication
- Responsive Web & Mobile UI Development
- Debugging, Testing & Performance Optimization
- Full-Stack Web Application Development
- Version Control (Git) | Agile Development
- Problem Solving & Team Collaboration
- Time Management & Multitasking

WORK EXPERIENCE

JUNIOR PYTHON DEVELOPER, Jan 2025 – Dec 2025
WebOne Info Pvt Ltd
KEY RESPONSIBILITIES

- Developed and maintained Django-based web applications as part of an agile development team.
- Led key modules of the School Management System, including staff and student enrollment, attendance tracking, bulk student data uploads, and result management.
- Designed and implemented the Alumni Management System with features for user registration, communication, and event coordination.
- Performed debugging, testing, and optimization to improve application performance and user experience.
- Managed and manipulated data using MySQL, ensuring efficient and reliable database operations.

REACT NATIVE INTERN, JULY 2025 – DEC 2025

- Developed cross-platform mobile applications using React Native.
- Implemented responsive UI components and integrated backend APIs for seamless functionality.
- Maintained project documentation and assisted in version control using Git.

Python Full-Stack Intern, May 2024 – Dec 2024
SMEC Labs

- Completed a comprehensive internship focused on full-stack web development.
- Built responsive web pages using HTML, CSS, Bootstrap, and React for frontend development.
- Implemented backend functionalities using Django with MySQL and MongoDB database integration.
- Developed mini-projects combining frontend and backend skills to simulate real-world applications.

Python Full-Stack Intern, Aug 2023 – Jan 2024
Camerinfolks Pvt Ltd, Kochi, Kerala, India

- Designed and developed CRUD operations and user authentication modules in Django projects.
- Created responsive user interfaces using HTML, CSS, and JavaScript, integrating them with backend databases.
- Collaborated on end-to-end full-stack development to ensure seamless functionality between frontend and backend components.

Python Basic Course, Sept 2022 - Dec 2022
EasyCourses, Thrissur

- Gained hands-on experience in writing Python scripts and solving programming challenges.
- Completed a foundational course in Python programming covering data types, control structures, functions, and basic OOP concepts.

Apprentice Trainee (Unpaid), Feb 2022 – Aug 2022
Kerala State Electricity Board

- Learned practical applications of electrical engineering concepts in real-world scenarios.
- Prepared and maintained technical documentation and reports for ongoing projects.
- Collaborated with team members to ensure timely completion of tasks and adherence to safety standards.

EDUCATION

B. TECH IN ELECTRICAL & ELECTRONICS ENGINEERING(CGPA-7.4) | 2017 – 2021

- AVIT Vinayaka Mission Research Foundation

HIGHER SECONDARY (70%) | 2014-2016

- Sree Shankara Oriental Higher Secondary School

SSLC| 2014

- Kerala Board of Public Examination. Kerala. India

PROJECTS

E-COMMERCE APPLICATION WITH PAYMENT GATEWAY INTEGRATION

- Developed an e-commerce application with secure user authentication, cart management, and integrated third-party payment gateway.
- Implemented end-to-end redirect-based payment flow with secure login, 4-digit transaction PIN validation, and real-time payment status confirmation.

HOSPITAL MANAGEMENT WEBSITE | DJANGO, HTML, CSS

- Developed a hospital management system for patient bookings and hospital service management.
- Designed a responsive frontend using HTML, CSS, and Bootstrap to enhance user experience.
- Implemented a robust backend with Django, including CRUD operations and an admin panel to manage staff, patients, and doctors.

SCHOOL MANAGEMENT WEBSITE | DJANGO, HTML, CSS

- Built a school management system for efficient student data management.
- Created admin interfaces to manage and filter student payment records.
- Developed responsive UI and backend functionalities using Django to streamline school workflow.

CERTIFICATIONS

- Certificate As Junior Developer In Webone Info Pvt Ltd (15 Jan 2025 - 15 Dec 2025)
- React Native Internship certificate (14 aug 2025 - 14 dec 2025)
- Internship Certificate in Software Development – Python, SMEC Labs | 11/12/2024
- Internship Certificate in Software Development – Python, Camerinfolks Pvt Ltd | 03/04/2024
- STED Council Certificate for Foundation in Pvthon | 2022

TECHNICAL SKILLS

- Python, Django, React, React Native, RESTful API, HTML, CSS, Bootstrap, Tailwind CSS, MySQL, MongoDB, Git, GitHub, CRUD Operations, User Authentication, Responsive Design

CORE COMPETENCIES

- Python Programming & Object-Oriented Concepts
- Django & REST API Development
- Full-Stack Web Application Development
- React & React Native Application Development
- Database Management (MySQL, MongoDB)
- CRUD Operations & Authentication Systems
- Version Control using Git & GitHub
- Debugging, Testing & Code Optimization

PERSONAL STRENGTHS

- Quick learner with a high level of adaptability, able to rapidly understand new programming languages, frameworks, tools, and project requirements.
- Detail-oriented approach to development, ensuring clean code structure, proper documentation, and adherence to coding standards and best practices.
- Effective communication skills, enabling clear interaction with developers, designers, testers, and stakeholders across cross-functional teams.

LANGUAGES KNOWN

- English, Hindi, Tamil, Malayalam
